

# KEEPING PETS HEALTHY

## FINGER AND THUMB GAME

A large part of a veterinarian's job is to help pet owners keep their pets healthy and free from disease and sickness. Pet owners have a responsibility to be aware of the things **they** can do to keep their pets healthy.

Here's a fun **finger and thumb game** for you to make and play...

- Cut around the outside square and place on a flat surface with printed side down
- Fold each corner point into the centre of the square
- Turn it over and fold all four corners points into the centre again
- Fold in half with animals on outside.
- Stick your two thumbs and two forefingers into each of the 4 flap pockets. You may need to crease it along the flap lines first.
- Fingers should press centre creases so that all 4 flaps meet at a point in the centre.
- Enjoy!
